SUMMARY

Computer Science student at Benha National University (GPA **3.32/4.0** · Dean's List Fall 2025–26) with hands-on experience building and deploying backend applications using ASP.NET Core, Docker, PostgreSQL, and cloud-based deployment platforms. Passionate about scalable systems, automation, AI integration, and startup environments. Quick learner with experience collaborating in remote teams and contributing to real-world software projects.

EXPERIENCE

Backend AI Engineer — Intern

Jun 2026 – Present

FlyRank AI · Remote

- Developing scalable backend services integrating AI models into production workflows
- Working with APIs, automation pipelines, and cloud-based development practices
- Collaborating with remote engineering teams using Git and Agile workflows

Full Stack Developer — Intern

Oct 2025 – Present

Digital Egypt Pioneers Initiative (DEPI) · Remote

- Developing modern web applications using ASP.NET Core and relational databases
- Applying software engineering best practices including version control, testing, deployment, and team collaboration
- Participating in collaborative project development using Agile methodologies

Software Engineering Trainee

Feb 2024 – Mar 2024

ALX Africa · Remote

- Completed intensive backend curriculum covering C, Python, REST APIs, and data structures
- Solved 200+ algorithm challenges; participated in pair programming and code reviews

PROJECTS

GameStore · C#, ASP.NET Core 8, PostgreSQL, EF Core, xUnit, Docker, Railway

gamestore.tech

- Built and deployed a production-ready digital marketplace supporting authentication, payments, role-based access control, and cloud deployment
- Designed scalable backend architecture using ASP.NET Core, EF Core, PostgreSQL, and Docker
- Deployed the platform to cloud infrastructure using Railway
- Implemented secure authentication, API design, testing, and CI-friendly development workflow; 100+ unit tests with xUnit

TECHNICAL SKILLS

Programming C#, SQL, Python, C++, JavaScript

Backend ASP.NET Core, REST APIs, Entity Framework Core

Cloud & Deployment Docker, Railway, Git, Containerisation

Databases PostgreSQL, SQL Server, Database Design

AI & Automation AI API Integration, Prompt Engineering, Automation Workflows

Software Engineering Agile, Git, Unit Testing, Problem Solving

Professional Skills: Fast Learner · Team Collaboration · Startup Mindset · Analytical Thinking · Problem Solving · Adaptability · Technical Research · Communication

EDUCATION & CERTIFICATIONS

B.Sc. Computer Science — Software & Application Development

Sep 2023 – Present

Benha National University Relevant Coursework: Cloud Computing, Operating Systems, Computer Networks, Databases, Software Engineering, Data Structures & Algorithms

Certifications: ALX AiCE – AI Career Essentials (May 2024) · Beginning SQL Server – Coursera (Feb 2024) · CCNAv7 – Cisco (Feb 2024)

LANGUAGES

Arabic — Native · English — Professional Working Proficiency · German — Elementary
